Radio and TV Interference Statement

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part of the CE rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. It can be determined, if this equipment does cause harmful interference to radio or television reception, by turning the equipment off and on.

6 Cautions

Please read all safety precautions before using the device.

- Make sure that the lens is within the wiping range of the winds shield wiper to ensure a clear view even when it rains.
- A protective film on the lens will affect the video or photographic effect, remove the protective film before using the device.
- Do not touch the lens with your fingers. Finger grease may be left on the lens and will result in unclear videos or snapshots. Clean the lens on a regular basis.
- Make sure that the installation position is not hindered by the tinted window
- Use the contained car power adaptor only. In order to avoid equipment burn or cause the battery explosion, please do not use other brand car power adaptor.
- Due to local laws and vehicles safety considerations, do not operate the device while driving.
- Set up time and date accurately before you use this device.
- This product gets warm when in use, this is normal.
- Do not place the device near a heat source or directly expose it to flame or heat.
- Never place the device in vicinity of equipment generating strong electromagnetic fields. Exposure to strong magnetic fields may cause malfunctions or data corruption and loss.
- The system is used only for non-commercial use, within the maximum limits permitted by applicable law. Our company does not accept any responsibility for any data loss during the operation.
- Improper use or operation of the product may result in damage of the product or its accessories and void the warranty.

Before you start using the system, it is assumed that you agree to the above statement.
