Specification

Model Name	HiTi S420
Printing Method	Dye Diffusion Thermal Transfer
Resolution	403 x 403 dpi
Display	2.5" Color LCD
Print Size	4" x 6" (100 x 152 mm)
Paper Capacity	25 sheets
Printing Speed	Approx. 70 sec.
Input Media	CF/ SD/ SDHC/ MS/ MS Pro/ MMC/ Micro Drive/ USB Flash Drive
Operating System	Windows 98/ Me/ XP / Vista, Windows 7, Mac OS 10.2/ 10.3/ 10.4/ 10.5 and 10.6
Computer Interface	USB 1.1 / 2.0 compliant
Power Requirement	AC 100V~240V, 50/60 Hz
Dimension (WxHxD)	9.2 x 7 x 6.8 inch (234 x 178 x 175mm)
Net Weight	5.5lbs (2.5kg)
Stand-alone Function	Yes
Embedded ID Formats	Yes
Bundle Software	HiTi IDésirée 2

Consumables

- ▲ 50 Prints Photo Pack
- 50 Prints 1x1 Photo Sticker Pack
- 50 Prints 4x4 Photo Sticker Pack
- 50 Prints 4/2/4 Photo Sticker Pack

- ▲ 300 Prints Photo Pack

1 Series

HiTi P110S Photo Printer

HiTi P110S is the professional mobile photo printer dedicated for the photographers who demand mobility while work. With such high convenience/ mobility gear, users can shoot and print high-value photos anywhere and substantially increase opportunities for business.

Features

- In-situ printing for ultra mobility and portability
- Feature proven carrying bag
- Stylish compact design
- Battery support
- Standalone operation
- User-definable passport / ID photo formats
- 1-year unlimited prints warranty

▲ 2009 DIMA Shoot-Out Award Winner

▲ Standalone operation

▲ 1-year unlimited prints warranty

Studio
on the go

► Grow Your Business Profits through Mobile Photofinishing

With easy-carry appeal and user-friendly product design, HiTi P110S is the professional studio-on-the-go solution for the photographers who demand mobility while work.

■ Mobile ID / Passport Photo Printing Business

The mobile ID photo studio is possible through the mobility of P110S and special software for ID photos. ID photo photographers can practice business any place.

■ Mobile Event Photo Printing Business

As demand increases for instant printing for events like parties, weddings, sight-seeing tours, etc., the mobile printing function and high quality output of the light-weight compact P110S will definitely give the event photographer an advantage over the others. Supporting software may be used to make customized e-frames for each customer. It not only records beautiful memories for customers, but also increases the commercial value for each print.

► P110S Carrying Bag (purchased separately)

The P110S carrying bag is specially designed for HiTi P110S photo printer while the printer is setting inside the bag and being carrying around. The 3 main functions include

- "On location" photo printing while photographer on the move
- Ultimate dust prevention while printing outdoor
- Dedicated heat-ventilation design for better air flow while printing in the bag

■ Heat-ventilation design

P110S Specification

Model Name	P110S Photo Printer	P110S (with battery pack included)
Printing Method	Dye Diffusion Thermal Transfer (D2T2 Technology)	
Resolution	300 x 300 dpi	
Print Size	4"x 6" (100 x 152 mm)	
Printing Speed	Approx. 63 sec.	
Display	2.5" TFT LCD	
Input Media	CF/ SD/ SDHC/ MS/ MS Pro/ MMC/ Micro Drive/ USB Flash Drive

HiTi Dry Minilab Solution

Solution

► Powerful Performance & Incredible Efficiency

The solution consists of HiTi P720L photo printers, optional HiTi Picvite order terminal and powerful software- Picvite Kiosk as well as Picvite Minilab, which can be integrated easily with order and billing system. With HiTi Dry Minilab Solution, your photo shop can be operated as a high-end photofinishing center with cost effective investment and maintenance.

■ HiTi P720L Photo Printer

* Please refer to page 10 for HiTi P720L specifications

■ HiTi Picvite Terminal

* Please contact your sales representative for details

■ HiTi Picvite Minilab (Express) Software

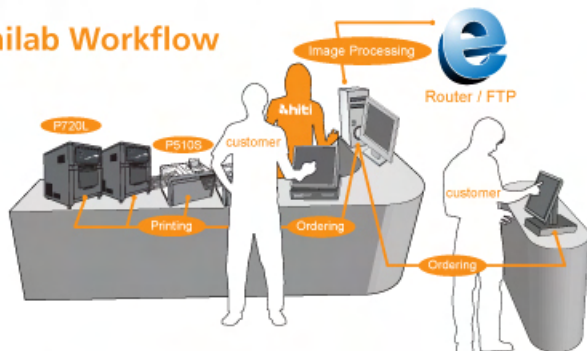

■ HiTi Picvite Kiosk (Express) Software

Features

- Build your own photofinishing center with less investment
- Powerful and multi-functional software integrates all photofinishing workflow in one
- Easy and complete ways to manage total jobs from front to back ends
- Allow multiple customers can be operated at the same time
- Complete management system satisfy photo shop owner's needs
- Speedy photo printing

► Minilab Workflow

Ordering Services

Workflow Management & Image Processing

Photo Printing
P720L / P510S

Professional Software to Enhance Workflow Efficiency

▶ HiTi Picvite Kiosk (Express) Software- Print and Edit Photos Quickly and Easily

Simple operation and advanced UI design

Equipped with the latest slide-touch technology and intuitive user-interface design, the customers can order and edit their photos in just few simple steps.

■ Slide touch technology

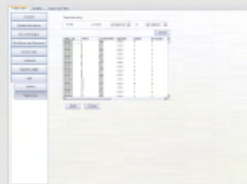

■ Brilliant UI design

Complete backstage management functions

Varied management tools, including daily sales inquiry, sales date records, selling price setting, function setting and administration authority, enable owners to manage business in an easiest way.

■ Store Setting

■ Sales data report

▶ HiTi Picvite Minilab (Express) Software- The Management Center of Your Photo Printing Business

Printing job management

This software integrates the workflow of printing jobs and the advanced tools for batch photos image adjustment within limited time.

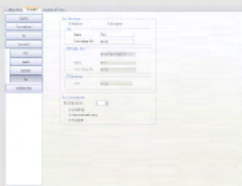

■ Job management screen

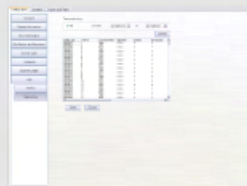

■ Image adjustment

Powerful backstage management

Diverse management tools enabling shop owners to manage sales result and export the order report for inventory and accounting system.

■ Complete backstage management function

■ Sales data export for accounting purpose

HiTi Direct Wireless Printing Solution

HiTi Direct Wireless Printing Solution

HiTi Direct Wireless Printing Solution consists of a HiTi P510Si Photo Printer and a Wireless Foto Transmitter WFT510. It provides high operating efficiency and enables photographers to expand the instant shoot-to-print business in the market.

- ▶ First 6-inch roll-type printer with direct wireless printing capability
- ▶ Standalone operation (no computer required)
- ▶ Support customized e-frame function

- ▶ The ONLY wireless foto transmitter is designed to work with PictBridge compatible digital cameras
- ▶ DIMA 2009 Innovative Digital Product Award winner
- ▶ Support PC connectivity

▶ Easy Operation Wireless Shoot-to-Print

Set up the linking between digital camera* and WFT510

Capture an image

Click "switch" button on WFT510

The DSC will switch to PictBridge Mode**. Choose the image and transmit to WFT510.

After receiving the image from WFT510, P510Si will print the photo immediately

* The digital camera should support PictBridge.

** This procedure could be varied by camera.

Solution Features

- Allow users to transmit images from a PictBridge compatible digital camera* to HiTi P510Si photo printer wirelessly
- Enable photographers to do instant photo printing without equipping wire to a photo printer or removing memory card
- Ultimate workflow efficiency
- Innovative design and application
- Affordable wireless printing solution
- The ideal choice for on-location photofinishing

*Actual compatibility may vary by cameras

Specification

Model Name	HiTi Wireless Foto Transmitter (WFT 510)		
Hardware			
Wireless Standards	IEEE 802.11b /g Compatible		
Transmission Method	IEEE 802.11b: DQPSK, DBPSK IEEE 802.11g: OFDM		
Transmission Frequency	2,412MHz-2,472 MHz		
Antenna	Gain 2 dBi		
Transmission Range	Approximately 100m (With no obstructions between the transmitter and receiving device and no radio interference)		
Data Rates	1-11 Mbps for IEEE 802.11b, 6-54 Mbps for IEEE 802.11g (Logical data rates according to IEEE standard. Actual rates may vary by operation environment.)		
Connection Method	Ad-hoc / Infrastructure		
Camera Connection	USB2.0 Hi-Speed		
PC/Printer Connection	USB 1.1 (Micro USB)		
Camera Connection Protocol	PictBridge		
Network Protocol	TCP/IP, FTP		
Power Consumption	4W Maximum		
Power source	4 rechargeable or alkaline AA batteries		
Operation Condition	Temperature: 0°C ~40°C /35°F~103°F Humidity: less than 85% (no condensation)		
Dimension (W*H*D)	68mm x 140mm x 30mm		
Weight	Approximately 155g (body only)		
Software			
Software Name	HiTi WFT PC Kit	Connection Method	Ad-hoc / Infrastructure
Operation System	Windows XP, Vista, Windows 7, Mac OS 10.5	Network Protocols	TCP / IP, FTP
		PC Connection	USB 1.1

HiTi at a Glance

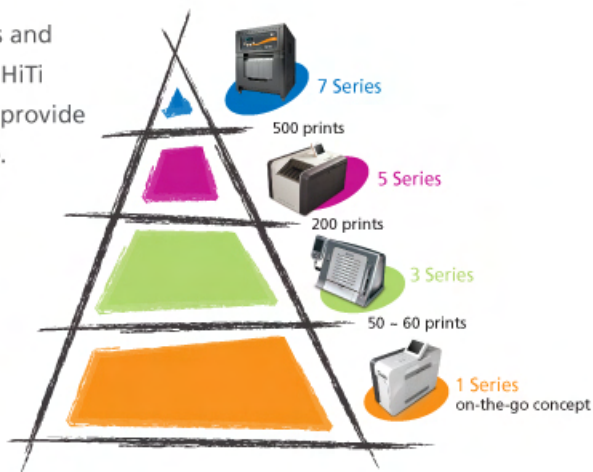

Company Overview

Funded in 2001, HiTi Digital, Inc. designs, manufactures and distributes quality digital photo equipments and security card printers around the world. Armed with HiTi Digital's world-leading thermal dye-sublimation technology, HiTi photo printers and card printers provide unmatched quality, convenience and color performance.

Photo Printer Range

By utilizing "capacity" as references and divides, HiTi Digital Inc. has defines HiTi photo printers into 1/3/5/7 series to provide the best ideal solution for everyone.

Diverse Digital Image Printing Application

In order to satisfy diverse digital image printing service and applications, HiTi provides best ideal solutions for everyone, including passport/ID photo printing, event photo printing, Kiosk application, commercial photo printing service, and security card printing application.

Superior Printing Quality

Regarding instant color image printing, we believe there is nothing like dye sublimation technology that provides such a superior output quality for everyone. The technology enables photo-realistic quality and 16.77 million continuous-tone images. The printout result is better than other printing methods, such as inkjet printing. The printout quality is similar to minilab printing, but without any chemical processing.

Powered by HiTi Color

HiTi Color technology is a HiTi exclusive color management system designed to provide both professionals and amateurs with the best color output quality possible and to minimize color inconsistency between the image input and the printer output. HiTi Color technology has already won 8 DIMA and 1 TIPA awards and is acclaimed by photographic professionals from around the world.
